Project Foundation –

Focuses on operationalizing project structures to kick off transactions

Create a New Project from Template

Add & Manage Tasks (WBS)

Assign Key Resources and Project Roles

Update Project Status (Draft → Approved)

Assign Project Organizations and Control Options

Add Stakeholders and Team Members

Track Project in “My Projects” dashboard

Project Control –

Planning, budgeting, tracking, and forecasting in real time

Create Cost and Revenue Budgets

Baseline the Budget

Forecast Future Project Costs and Revenues

Track Actuals vs Budget (Variance Analysis)

Periodic Project Progress Updates

Update Task Completion % and Dates

Capture Planning Resource Breakdown (optional)

Raise Change Orders for Budget Revisions

Project Costing –

Captures actual costs from different sources into projects

Import Supplier Invoices to Projects (from AP)

Import Time Entries via Time & Labor

Import Expense Reports (from Expenses Module)

Create & Process Miscellaneous Transactions

Run Distribute Costs and Review Cost Distribution

Review Costs in Project Cost Dashboard

Perform Cost Adjustments (transfer/reclassify)

Allocate Shared Costs across Projects

Capitalize Assets for Capital Projects

Interface Cost to Fixed Asset

Project Billing –

Covers client billing and revenue recognition steps

Associate Project to a Contract Line

Define Bill and Revenue Plans

Generate Revenue (T&M or Milestone)

Create Billing Events (Timebased, Manual, or Milestone)

Generate Draft Invoices from Projects

Review and Approve Invoices

Interface Invoices to Accounts Receivable (AR)

Create Credit Memos or Adjustments

Review Unbilled Revenue and Deferred Billing

Project Performance Reporting –

- Reviewing performance metrics and analysing project health
- Monitor Costs and Budget in OTBI Dashboards
- Review Project Profitability Report
- Run Capital Project Summary Report
- Analyse Earned Value Metrics (if used)
- View Unbilled / Unrecognized Revenue Reports
- Use BI Publisher Reports (like Cost Summary, Aging)
- Download Task Progress Reports
- Share Reports with Team or Approvers

What our Trainees Say

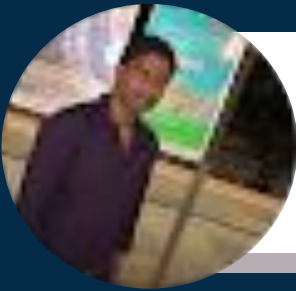

A

Ashwini Krishnan

Hi, I took training on Oracle Fusion Financials here. It's really been a wonderful feeling having associated myself with Tech Leads IT For Fusion training. The faculty here is very keen on making his students gaining knowledge on real-time Implementation. Here the Trainers having real-time Experience. They are very responsive towards student's queries & delivers the training with complete perfection.

I am very Much satisfied with the Trainers Explanation and Facilities provided by the institute. actually I am new to Oracle, I don't have basic knowledge also but the Trainer given very good support and guidance. I can suggest this is the best place to learn Oracle Fusion Trainings.

Matheen md

Thank You for the sessions that helped me gaining knowledge in Oracle Fusion Financial training. Trainer's experience helped me to get the detailed information regarding the key concepts and challenging tasks in real-time. Thanks Tech Leads IT once again.

sk sharmila

Hi, I took training on Oracle Cloud Financials here the Trainer teaching was excellent. We are satisfied with his teaching in Financials Modules. even other Courses will also learn in this institute. Because here the Trainers having real-time Experience. actually, I am new to learn this course, I don't have basic knowledge also but the Trainer given very good guidance and support. Trainer interacts with every student and clarifying the doubts.

S

Sai Gopi

My self Sai Gopi I took Training on Fusion Financials. Trainer has helped me a lot towards Gaining knowledge on Fusion Financials Modules. Tech Leads is Good Training Institute Here the trainer interacts with every student and clarifying the doubts. They took practice sessions also this will help us to know our mistakes. Fusion Application Access is also good. so everyone who wants to learn Oracle Fusion Training better to join in Tech Leads IT. Once again thanks Tech Leads IT Team.
